# THE FARMERS

## COW TESTING ASSOCIATIONS AND HIGH YIELDS.

The occasional high individual yields of milk in the various herds just emphasize the fact that the average yield is low, thereby calling loudly for the increase of cow testing associations to detect and eliminate those low yields of milk and fat and milk average yields down.

The Milton (Ont.) association for 1906, one herd of nine cows, in the last thirty day period gave a total production of 5,779 lbs. of milk, an average of 642 lbs. per cow. Another herd of nine cows had a total yield of 8,450 lbs. during the same period, or an average of 939 lbs. each. The cows in these two herds all freshened about the same time from September to June. The average yield of the 128 cows tested here was 720 lbs. milk. A third herd of nine cows, however, during these two years, having a total production of 7,240 lbs. of milk, and an average of 804 lbs. per cow. But the herd includes one of the highest individual yields in the association, namely 1,250 lbs. in thirty days. Simply taking the average milk production for calculating profits from a herd is unsatisfactory in the extreme. One of the most reliable needs of the present day is a systematic recording of the performance of each individual in the herd; this is the only safe basis from which to commence truly intelligent cow testing.

Cow testing associations are thus bound to increase in popularity. Every practicing association that farmers appreciate the definite information that they convey.

Some of the best cows in the association at East and West Oxford have averaged a total of over 12,000 lbs. of milk in 1906, and 10,000 lbs. of milk and 500 pounds of fat. One cow, a three year old, calving in April but produced 12,000 lbs. of fat up to the end of July, and gave 5,500 pounds of milk and 500 pounds of fat. Another five year old, calving March 30, gave 6,015 lbs. of milk and 196.2 lbs. of butter fat, 2.8 lbs. of fat per lb. of milk.

Phin Grove (Ont.), 1905, 123 cows average 815 lbs. of milk, 3.2 test, 200 lbs. of fat. One good yield here is 1,360 lbs. of milk, 25.5 test, 200 lbs. of fat. There are several poor individual yields of under 600 lbs. of milk. British Columbia has now five associations. Two of them have the same average test for 1906 as the above. Edna Bank, B.C., 278 cows, 771 lbs. of milk, 3.7 test, 2.8 lbs. of fat per lb. of milk. B.C., 146 cows, 195 lbs. of milk, 3.7 test, 2.8 lbs. of fat per lb. of milk.

Colquhoun, Que., 99 cows, July 23, 720 lbs. of milk, 3.3 test, 2.7 lbs. of fat. Bedford (Ont.), 206 cows, July 30, 668 lbs. of milk, 3.1 test, 2.7 lbs. of fat.

## NOT SO BAD AS FARMERS.

J. J. Deachman, of Winnipeg, is in the city. Mr. Deachman, who represented the Farmers' Advocate in the city for a year or two, has returned the last year his business manager of the paper in Winnipeg. Mr. Deachman signed his position and will establish a paper of his own in the west, possibly in British Columbia.

He states that the harvest after the way via Regina is the best in the west, and that there will be a considerable crop in the west. Coming west from Winnipeg most of the wheat is cut, until the vicinity of Regina is reached. North from Regina towards Saskatoon nearly all the grain is cut and has stacked well. He was surprised at the heavy crop from the west, and the weather. Very little was lying on the ground and the grain, in five days will be easily harvested.

## WINNIPEG GRAIN MARKET.

Winnipeg, Sept. 20.—The markets were very strong today. Liverpool, 13 1/2 to 14 higher. American wheat, 10 to 11 higher. In response to Liverpool, and advanced about 25, ending 10 1/2 at the close on strengthening. Closing 10 1/2 to 2 1/2 higher than yesterday. Increasing recognition of the damage to, and shortage in, our western Canadian crop is the reason for the advance. Winnipeg wheat closed No. 1 northern, 10 1/2; No. 2 northern, 10 1/2; No. 3 northern, 9 1/2; No. 4 wheat, 8 1/2; spot or on route, 8 1/2; barley and flax all firm and higher. No. 2 white, 8 1/2; (October delivery), December 8 1/2; No. 3 white, 8 1/2; No. 4 white, 8 1/2; No. 5 white, 8 1/2; No. 6 white, 8 1/2; No. 7 white, 8 1/2; No. 8 white, 8 1/2; No. 9 white, 8 1/2; No. 10 white, 8 1/2; # Lacombe, One of the Most Promising of Alberta's Thriving Towns

The town of Lacombe is not apparently suffering from either the scarcity or the money stringency. The active building operations in that thriving town would seem to show that its growth is both steady and sure. A few years ago it was only a village of a few houses, to-day it is a town of 1,500 inhabitants, and a steady growth that will put it in the city class before many years. It is fortunately the center for one of Alberta's best farming districts. Men who have tilled the soil around Lacombe for over fifteen years boast that they never had what could be termed a crop failure, and they claim that this year their harvest was by no means by in vain, despite the somewhat unfavorable weather.

VICTORIA HOTEL, A MODERN HOSTELRY IN LACOMBE.

A new \$200,000 school is the chief public undertaking in Lacombe this year. It is to be a handsome brick building to contain ten rooms and an assembly room. The first story is already up, and the remainder of the work will be done as quickly as possible. It is only a few years since a large frame school building was erected in the town, but the rapid growth of the last three years has rendered its accommodation entirely inadequate. The corner stone of the new school was laid by Premier Robt. Borden.

**New Homes.**  
For a town of some 1,500 inhabitants Lacombe has made very substantial additions to its dwelling houses this year, thirty new homes having been

erected. Affording this is a large piece of brick building with the walls up ready to roof. This building contains two stories and a large office, and will add much to the good appearance of the town. Mr. H. A. Day is the proprietor, and he and Urquhart & Co. are erecting these new buildings at a cost of about \$100,000, which speaks volumes for the business opportunities afforded by his thriving town.

**To Fight Fire.**  
An artesian well, 232 feet deep, gives

the town that are bound to grow as the town is developed, and the importance of some very considerable importance in the future. A flour mill of 25 barrels capacity has also been in operation in the town for some time.

The amount of building in progress in the town is a fitting reply to the pessimists who think a few weeks of bad weather is a body blow for the West. New houses, new stores and new schools for the children will

LACOMBE'S NEW \$40,000 PUBLIC SCHOOL BUILDING, CORNER STONE OF WHICH WAS LAID RECENTLY.

**Board of Trade.**  
The Lacombe Board of Trade sent a splendid exhibit of grain and grasses, both in the shed and through to the Canadian government agent at Spokane, Wash., to be exhibited at the fair in that city this fall. The secretary of the Board of Trade is Mr. John McKenney.

**Its Citizens.**  
Lacombe is fortunate in its class of business men who have always been ready to promote the welfare of the town, and have contributed greatly to its successful growth. The new buildings now going up are all under lease, and will be occupied as soon as they are ready to move into by progressive business men, and the fact that so much building is going on at the present time, is a very good indication as to the business future of the town.

**Pure Dred Stock.**  
The vicinity of Lacombe has been noted for some time for its splendid purebred cattle both short horns and Herefords. It is the home of the great short horn. Cattle of this number of good horses have recently been brought into the district, and the Lacombe district will rival any other in the province for purebred stock.

**Newsletters.**  
Like every other live town, Lacombe has two newspapers, the Western Globe and the Advertiser. They are bright, new, local papers, and are a credit to the town. The Advertiser is referred to a growing town by a bright, progressive local newspaper, is often underestimated. Towns in the west, however, have given good support to their newspapers, and the result is that nearly every town or village in Alberta has a good live advertising medium.

**Public Men.**  
The town of Lacombe can boast of two citizens who are taking a somewhat important part in the public life of the country. Hon. Senator Talbot, a pioneer of the district, has given good service to his country, and is the stamp of citizen of which any community might well be proud. W. F. Puffer, M.P.P. is one of Lacombe's successful business men, and has proven himself a capable and useful member of the Legislature.

**The Town Growing.**  
The main purpose of this article has been to set forth the steady and substantial growth of the town of Lacombe. The town is developing, and the importance of some very considerable importance in the future. A flour mill of 25 barrels capacity has also been in operation in the town for some time.

**Manufacturing.**  
A planing mill and saw and door factory owned by D. J. McLaughlin, and a foundry owned by J. A. Finch, are the beginning of industries in

MERCHANTS' BANK BUILDING, LACOMBE.

W. F. PUFFER, M.P.P.

man who has spent a few years in Alberta. This strong young citizen will rally in a few months, straight and more vigorous than ever, only to

for-est in the town of Lacombe. An up-to-date prospectus of the drill has been prepared and is now being sent out. At the present time the coal mined in this area is to be hauled from 8 to 10 miles, which adds considerably to the cost of the mines. It is to be hoped the syndicate meets with success.

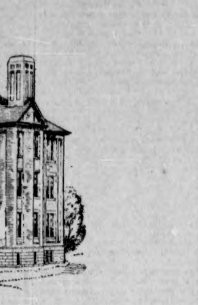

**W. F. Puffer, M.P.P.**  
The Lacombe Board of Trade sent a splendid exhibit of grain and grasses, both in the shed and through to the Canadian government agent at Spokane, Wash., to be exhibited at the fair in that city this fall. The secretary of the Board of Trade is Mr. John McKenney.

erected, among which is the handsome new residence of Mayor Gower. Mr. Gower has the distinction of being mayor of a town that has carefully conserved its finances, and is not worried about the money market in the sale of debentures. Apart from its school debentures, the debt of Lacombe amounts to only \$100,000. So it occupies an enviable position in this particular.

**A New Hotel.**  
Among the new buildings under construction is the Adelphi Hotel, which is being built of cement blocks and presents a fine appearance. When completed, and it is fast nearing that stage, the hotel will cost about \$80,000, which is a very good evidence of the faith Mr. A. T. Insip, the proprietor of the new Adelphi, has in the future of Lacombe.

THE NEW ADELPHI HOTEL, LACOMBE.

the light. A proposition is now being considered by this power company to operate an electric railway to Gull Lake, the popular summer resort about eight miles from Lacombe. Mr. F. E. Wilkins, formerly of Red Deer, is manager of the electric company.

**Making Brick.**  
Building material will soon be plentiful in Lacombe, as two brick companies are now in operation. The Lacombe Brick, Tile and Cement Co. has a plant in operation with a capacity of 40,000 brick per day, while the Crow House & Fulger Brick Co. have already made about 200,000 brick, their plant having a capacity of 80,000 per day. A plant for making cement blocks is also established in the town, and the Adelphi hotel and a new jewelry store now in course of erection, attest to the success of cement blocks as building material.

THE NEW ADELPHI HOTEL, LACOMBE.

erected, among which is the handsome new residence of Mayor Gower. Mr. Gower has the distinction of being mayor of a town that has carefully conserved its finances, and is not worried about the money market in the sale of debentures. Apart from its school debentures, the debt of Lacombe amounts to only \$100,000. So it occupies an enviable position in this particular.

**A New Hotel.**  
Among the new buildings under construction is the Adelphi Hotel, which is being built of cement blocks and presents a fine appearance. When completed, and it is fast nearing that stage, the hotel will cost about \$80,000, which is a very good evidence of the faith Mr. A. T. Insip, the proprietor of the new Adelphi, has in the future of Lacombe.

THE NEW ADELPHI HOTEL, LACOMBE.

## BLUE RIBBON OF SEA

The History of Atlantic Shipping Recalled By the Lusitania's Marvellous Record—How a Titanic Struggle for Blue Ribbon of Sea.

The remarkable passage across the Atlantic of the great battleship, *Lusitania*, which arrived in New York last week, having performed ten voyages from Queenstown to Sandy Hook Lightship, in five days, 14 minutes, calls attention to the great development that has occurred in ocean traffic since the early days of the modern sailing ships.

In the golden days of "fast" sailing—each hour or knot on the water was a triumph—there were ten or twelve days were the quick passages of boats of the Black Ball Line, and other great packet lines, across the Atlantic. Then, there is the record of the Dreadnaught, *Capitani*, which crossed the ocean in 1901 from this port to Queenstown in nine days and seventeen hours.

It was many years ago that steamships exceeded that record. In 1858 the *Sirius* and *Great Western*, two steamships, British built and British manned, had crossed the ocean successfully. *Sirius* was a boat of 70 tons, launched at Bristol, and the *Great Western* of about the same size was London built. They were of wood, and the record of the *Sirius* was broken in fourteen days. The eastern journey was made in about the same time.

**Canada Line in the Field.**  
The *Canada Line* was started in 1850, appearing in the trans-Atlantic field with a quartet of wooden screw-driven, *Canada*, *Albatross*, *Albatross*, and *Albatross*. The *Yankee* and *Albatross* had been built in New York, but not often enough to defeat the record of the *Canada Line*. In 1851 the *Canada* was the best of the passenger and freight traffic for its home. As an instance of the general build of the earliest *Canada* line it might be pointed out that the *Albatross* was 200 feet long, about the length of an average steam yacht, 22 feet wide, and had a displacement of 1,100, and speed of 35 knots an hour.

Adding to its fleet from time to time, the *Canada Company* in the early years had a number of boats which steadily and without accident were making the trip from Liverpool to New York in from five days and three hours to fourteen days and three hours. With these boats came the line continued on the high seas or properly understood until 1856, the *immense*, but ill-fated, *Colt's* line. American in organization, built for coastwise and long-distance trade, it was relatively far greater in comparison to the ships of contemporary lines than the *Lusitania* is today.

There was the *Albatross* line, which, in 1856, 2,545 tons, *Albatross*, 2,723 tons and *Albatross*, 2,723 tons. They were driven by coal-burners, and their speed was 180 horsepower. The *Albatross* line, at once, showed their superiority to the *Canada* as far as speed, at least, was concerned. The *Albatross* line, at once, showed their superiority to the *Canada* as far as speed, at least, was concerned. The *Albatross* line, at once, showed their superiority to the *Canada* as far as speed, at least, was concerned.

In the years 1854 and '56, the *Colt's* line sustained losses of two boats each year, the *Albatross* line, in collision with a French ship, with hundreds of lives, and the *Albatross* line, in collision with a French ship, with hundreds of lives, and the *Albatross* line, in collision with a French ship, with hundreds of lives.

**Americans Fast Out.**  
From that time on, Americans were never especially prominent in the fight to reduce the time across the Atlantic. The *Pacific* had crossed the Atlantic in nine days, 20 hours and sixteen minutes, and the *Albatross* had made the passage in nine days, seven hours and twelve minutes. The *Canada* continued building new steamships, and in 1864 the *Pacific* made a record of nine days, one hour and 45 minutes, when people were put to talk of the *Albatross* line. In 1866, when the *Albatross* line, in collision with a French ship, with hundreds of lives, and the *Albatross* line, in collision with a French ship, with hundreds of lives.

**Successful Winners.**  
The *City of Brussels*, three years later, crossed in seven days, 22 hours and three minutes, and two years later the *White Star* line *Albatross* made the passage in two hours better time of eight days, seven hours and 45 minutes. The *Albatross* line, in collision with a French ship, with hundreds of lives, and the *Albatross* line, in collision with a French ship, with hundreds of lives.

The *Albatross* line, in collision with a French ship, with hundreds of lives, and the *Albatross* line, in collision with a French ship, with hundreds of lives, and the *Albatross* line, in collision with a French ship, with hundreds of lives, and the *Albatross* line, in collision with a French ship, with hundreds of lives.

This company took a finer grip on trans-Atlantic supremacy in 1868, when it brought out the *Albatross* line, which is still plying the regular New York service of the line. She crossed the record to the *Albatross* line, in collision with a French ship, with hundreds of lives, and the *Albatross* line, in collision with a French ship, with hundreds of lives.

probably have to content themselves with the struggle at least with an open air risk this season. Derivatives of the line are practically assured a risk, which is to be built by a joint risk scheme, almost all the shares are already subscribed.

Long & Co., Montreal manufacturers, are seeking to extend their already large industry, and to do so are leasing \$100,000 common stock, in shares of \$200 each.

Contractor Carrière's firm and industry of Montreal, were visited a week under the parental roof, returning Thursday.

More important weather for fall fair than Sept. 9, it could scarcely be imagined. There have been several withdrawals of Alberta fair.

Waskiwini is confidently expected there will be no such occurrence here. The big exhibition opens October 9th, a large price list.

Greater benefit, of Winnipeg, speaking as a resident of this peculiar and venerable country of some years' standing.

The Alberta government agent, W. H. Norris, is to be at the government creamery, Monday and Tuesday next, Sept. 23 and 24, to purchase spring chickens for the fattening stations.

The new class of Canada presented to the High School, is a splendid example of the lithographic art. It is the most complete and accurate yet published, and the Department of the Interior is to complement on its generosity to the High Schools of the province, as well as upon possessing a geographer of such ability.

**Short Shows Unhappy.**  
Harrisburg, Pa., Sept. 20.—Dr. Samuel G. Dixon, state health commissioner, issued an order today that shows in the theatre of sleeping cars running through Pennsylvania are to be sufficiently long to turn over at the upper end of the blanket at least two feet, so as to prevent the blanket coming in contact with the face of the occupant of the berth.

**ROYAL CROWN SOAP**  
Here is a laundry soap that contains not a single harmful ingredient.

You can safely use Royal Crown Laundry Soap when lace curtains, dainty lingerie, expensive blouses, and all manner of delicate fabrics are washed. It is the cleaning influence of an extra good soap.

Same price as ordinary soap, but extraordinary value.

MADE ONLY BY THE ROYAL CROWN, Limited WINNIPEG.

Save the coupons—they are worth money.

St. Petersburg, Sept. 20.—Russian made immediate use of the free hand given her under the terms of the Anglo-Russian treaty. The "Moscow" daily printed an official note confirming the reports that Mr. Hertzske, Russian minister at Toronto, had not only drawn the attention of the Persian government to the increase of anarchy in the districts adjoining the Russian border, but had also drawn direct threat to the national assembly of a Russian occupation in North Persia. Disorders had occurred in the north, affecting Russian interest and added that in the Persian territories were unable to put down the disorders, while the Russian government might become necessary for Russia to take steps in the direction of military intervention on her own account.

**WETASKIWIN.**  
Bulletin News Service.

Temperatures are being asked for the stations for the new gas production plant at the power house. The foundations are to be of concrete.

Unfavorable weather caused an early close of the baseball games. The *Maroon*—the *Calder*—have disbanded for the season. One of the chief ladders has left town; *Pickler* Anderson goes to Ontario; *First Base* O'Keefe to Massachusetts; *Captain* Berry to the Coast; *Fielder* March to British Columbia.

Waskiwini is now a full pledged judicial district, which fact will probably hasten the building of the court house.

The new municipal scales, guaranteed correct and under rigid inspection, are being installed on Railway Street, opposite the post office.

The C.P.R. have obtained a box of 70,000 pounds of hay from one well to a depth of 500 feet. They require some, however, and are sinking another well near the first. Carriage times like the C. P. R. are always quicker than were municipalities.

The new well is down to 500 feet. The difficulties constantly appear, but no such dire has yet occurred.

The talented economist, Miss Bellamy, home graduate of the Boston School of Extension, and Miss Parry, of New York, who comes very highly recommended, are the artists who appear in Angus opera house next Thursday. A crowded house is expected.

L. R. Rix, who recently sold out his "furnishing business" to J. R. Staples of British Columbia, has just returned from a visit with Mrs. Rix, his old home, Wrentham, Ont.

Joe Locky, Hanft, is visiting relatives in town.

Military openings now on in full swing—Benedict to the tall timber! The city has long had several military and unsatisfactory, caused by a stagnant stream. These are to be cleared up at once by diverting the creek, through the property of F. Barnes and J. M. Walker.

The skating rink enthusiasts will

## BLOWEY-HENRY CO.

# CLEARANCE SALE

of Odds and Ends in Furniture

At this season of year, we have quite a number of broken lines which must be cleared out, regardless of cost. Staple lines that everybody needs at ridiculously low prices, and just at the season when you want every dollar to count.

## DOLLARS DO DOUBLE DUTY DON'T LET THIS OPPORTUNITY SLIP

### Our Big Line of Dressers & Stands

has been an exceptionally good selling department. The end of the season finds us with 9 designs which we are going to clear out in a hurry. Here is your opportunity.

12 only in Golden Bells, Dresser has three drawers, good mirror 15 x 22. Good value at our regular price \$12.50. Sale price, \$10.00.

2 only in Stafford Oak, 2 drawer Dresser 14 x 20, British velvet mirror, Regular \$14.50. Sale price \$10.00.

1 only Golden Elm, 2 drawer Dresser with mirror 14 x 20 British Velvet. Has been considered excellent value at \$14.00. Sale price, \$10.00.

1 only Golden Elm, Good, roomy, 2 drawer Dresser, mirror 20 x 24. Design and finish right up to the mark. Regular \$37.50. Sale price, \$10.00.

6 only Solid Oak, Dresser has 3 large drawers, mirror 20 x 24 British velvet, up to date in design. Good value at \$24.00. Sale price, \$10.00.

There are several other designs which we have not room to describe, at equally low prices.

### Our Iron Beds

are coming in for their share of the price cutting. Read our special prices, then come at once as the number in each line is limited. 4 designs only.

11 only good strong beds, 1 1/2 ft. post. Nicely assembled in white. Sale price, \$2.75.

9 only new designs with arch top and brass knobs. Sale price, \$4.25.

7 only left of one of our best selling patterns. Nicely fitted head and foot. Has brass knobs. Regular price \$4.50. Sale price, \$2.50.

8 only with brass top rail, one brass spindle and brass knob. Regular \$5.50. Sale price, \$2.50.

## This is Something That Every Lady Wants

We have a large line of these practical, labor-saving devices. These prices ought to tempt you.

Baking Cabinet \$7.50. Sale price \$6.00.  
" " 9.50 " 7.50.  
" " 13.75 " 11.00.

## Sale Starts on Wednesday Morning, Sept. 25th, and Lasts for Balance of Month.

## Baby Carriages and Go-Carts at Cost

Give the baby air. You can do it cheap now. Prices cut to cost. Don't delay. There are not many left.

## Five days only of money-saving opportunity. Crisp it while it lasts.

## BLOWEY-HENRY CO.

Fine Furniture and Carpets. Jasper Ave. East

## What to Drink

A most important question. What to drink concerns every human being, especially where conditions of local water supply are not good. What you drink has as much influence on your health as what you eat. Residents of Edmonton may now have beverages that *last* good, are good and which can be relied upon for *purity*. We have established in Edmonton the first water distilling plant west of Lake Superior, and from these "stills" comes every drop of water used in making our beverages. These beverages—"Hygeia Best"—are absolutely free from mineral or bacteriological contamination and contain

## No Lime or Alkali

The carbonated drinks we are making in Edmonton are of the same high class of beverages that have made our Toronto business the largest of its kind in Canada.

Among the "Hygeia Best Beverages" are:  
Belfast Ginger Ale  
Ginger Beer  
Lemonade  
Lemon Sour  
Sarsaparilla  
Birch Beer  
Cream Soda  
Hygeia Distilled Sparkling Lithia Water

Tona-Cola  
Orange Phosphate  
Cherry Phosphate  
Raspberry Phosphate  
Potash Water  
Soda Water

## STARTING NEWS

## ATHLETES WHO ARE CRIPPLED.

A basketball with both arms gone, a champion boxer with a dislocated elbow, a pitcher who is shy two fingers, and a cricketer with only one leg. Sounds like fiction, doesn't it?

The Amherst basketball is Albert Sutton. He has appeared all over the continent, he has played the best of the two armed champions on even terms, and has only had to hold to them in the very front rank.

As an exponent of the fancy shots, the kind of exhibition that rouses the average lover of the game to hold up his hands in amazement that anything can be done, Sutton is second to no one. Sutton has been playing for many years and yet he has only two stumps, both arms being off above the elbow. It is worthy of note that he gets better all the time.

When the Chicago Nationals won the championship last year a large part of the credit was given to Pitcher Brown. He was far and away the team's winning pitcher, and with him on the slab there seemed no way the Cubs could lose. Yet Brown is a mutilated athlete. He has only three fingers, or rather, two fingers and a thumb on his pitching hand. The first and second fingers he lost in an accident.

Another ball player who is known all over the country, Bill Connelly, the hardworking third baseman of the Detroit Americans, is minus one finger on his throwing hand, but no one would ever know it from the way he plays the game.

Bill, who comes from the coal region of Pennsylvania—Wilkes-Barre, his home—was a breaker by before he discovered that baseball was his right calling, and he lost his finger in an accident, which are all too common in that hard life.

Just even more remarkable in a baseball way is Sam Griffith, the one-armed pitcher of Philadelphia. Sam lost his arm many years ago, yet with the right arm alone he has won a million or more dollars. He pitches with a motion somewhat similar to that used by Sam Leever, the noted Philadelphia twister, who does very little with his left arm when winding up to let the ball go.

Griffith can get considerable speed and has played in a number of semi-professional teams in the vicinity of his home. Connie Mack, manager of the Philadelphia Athletics, champions of 1906, thought enough of Griffith to give him a trial, but the one-armed wonder did not quite fast enough for big league company.

The success of Battling Nelson in the ring has perhaps been more important than the work of any other boxer of recent years. He is one of the few who have developed in the last five years. After an unknown town, Hogewich, Ill., Nelson fought his way to the top. After many, till he finally landed the championship by knocking out Jimmy Britt. Then he lost to the colored wonder, Joe Gans, on a foul after a fight of forty-three rounds.

Nelson is crippled. Sportmen have backed Nelson and won big money on the outcome of his fights. Perhaps they would have been willing to take chances had they known that the battler is a virtual cripple. His left arm was so injured at the time and is so crippled that he cannot straighten it out. This makes it almost impossible for him to jab, for he cannot deliver the straight left. But Nelson says that far from being a handicap, his crippled elbow is a help to him. It enables him to deliver a terrible blow at short range and he can take up his stiff left arm with as much energy as though he had it filled with cement at the elbow to prevent any give when he lands a blow.

It is a noticeable feature of all Nelson's fights that he is always on the aggressive after his man, never raising a hand and preferring the milling at close range rather than at long distance.

There is a reason for this. At long range he shortened left arm in the vicinity of his nose. It is the only way of no use to him. It is only to say that he can see his opponent. Hence the reputation he has gained for aggressiveness is partly forced on him by his damaged arm.

There is a reason for this. At long range he shortened left arm in the vicinity of his nose. It is the only way of no use to him. It is only to say that he can see his opponent. Hence the reputation he has gained for aggressiveness is partly forced on him by his damaged arm.

and he particularly wishes them to meet George Hackenschmidt. Lonsdale also brought back with him a German wrestler named Schneider, whom he is confident has no superior in the German Roman style.

Crackham, a Calgary senior football player who has played with the Canadians, champion of Canada, is going out to the coast soon and will play with the Bruins. He is one of the finest exponents of the game in the Dominion.

Pool Tourney. The best and final game of the pool tournament will be played to-night at 8 o'clock. The principals McRougall and Goudie have successfully come through the matches in the first round and the game promises to be a very interesting one.

The results of yesterday are as follows: E. McDowell, 75, defeated E. W. Shaw, 30. Semi-final—A. McRougall, 120, defeated W. Bick, 57. F. Goudie, 120, defeated E. McDowell, 47.

Pro Hockey For Berlin. Berlin, Sept. 20.—Berlin professional hockey club was organized here this evening at a largely attended meeting of enthusiasts. That the town will be represented by a strong team in the professional league in Ontario was announced by the presence of one of last year's team who intend getting into the game this year, including G. C. Schaudt, N. Gross, P. J. McInnes, W. Knoll, G. Wacker and others. The team intend communicating with all other Ontario hockey teams with a view to organizing professional league. Oscar Rosen was elected president.

Cleveland Fined. Detroit, Mich. Sept. 20.—Secretary N. Y. of the Detroit American League baseball club, was notified by President McKeon, of the league, that he has imposed a fine of \$300, on the Cleveland club for deliberately delaying and making a failure of the second game of a double header here last Friday.

Iowa Surgeon Attempts Suicide. Marshall, Iowa, Sept. 20.—Dr. H. L. Matlack, one of the most prominent surgeons of Iowa, attempted suicide today by slitting his throat with a razor. A surgeon's knife. It is feared that he is fatally injured as he lost much blood.

Five Torpedo-Boat Destroyers. Washington, D. C., Sept. 20.—Secretary McKeon today awarded the contract for the construction of five torpedo-boat destroyers.

George Hackenschmidt, the "Russian Lion," who has been champion of the world at wrestling so long, who shortly has his position seriously threatened. His opponent, Antonio Pierre, "The Terrible Kick," who "produced" Madral, Hackenschmidt's rival, has just returned to London from a journey of weeks of touring the continent, succeeded in finding two Turkish wrestlers whom he is confident are the best the world has yet produced.

Alone has the quality and flavor which satisfy the connoisseur. Matured in sherry casks.
